

U.S. Department of Education's 22nd Annual National Meeting on
Alcohol and Other Drug Abuse and Violence Prevention in Higher Education

ENSURING THE SAFETY AND
WELL-BEING OF OUR STUDENTS:

Widening the Lens of Prevention

NOVEMBER 16-19, 2008 • CROWNE PLAZA ST. PAUL-RIVERFRONT • ST. PAUL, MINNESOTA

Regional Roundtables

**Please join us at the Regional Roundtables on
Sunday, November 16, 2008 from 3:30-4:30pm!**

Begin your National Meeting Conference experience meeting with others in your state by attending your Regional Roundtable at the U.S. Department of Education's 22nd National Meeting on Alcohol and Other Drug Abuse and Violence Prevention.

The Regional Roundtables provide an opportunity to connect with other prevention practitioners from your state that will enhance your conference experience and provide support when you return to your home campus.

The Roundtables also offer the opportunity to learn about The Network Addressing Collegiate Alcohol and Other Drug Issues, a voluntary membership organization whose member institutions agree are working toward a set of standards aimed at reducing alcohol and other drug problems at colleges and universities. The Regional Roundtables will provide you the opportunity to learn more about the Network's structure and meet with Network leaders, including your Regional Director. You also will learn about exciting Network initiatives such as the "Margaret J. Barr Student Research Award", the Members-Only Web site and information from the Higher Education Center.

The Network is a voluntary membership organization developed by the U.S. Department of Education whose member institutions agree to work toward a set of standards. For more information on The Network, visit www.thenetwork.ws.
